

**To establish peace of mind for our clients and associates nationwide by effectively distributing commercial products and services.
We cater to the specific needs of county, state, and federal agencies, prime contractors, corporations, and state vendors.**

After analyzing the employee benefit plans currently available to employers, NSA LLC has found complementary employee benefit plans that are designed to:

- Complete your current benefits plans,
- Offer complete coverage to your employee's,
- Decrease employee stress and absenteeism
- And have a positive financial impact on your company.

The *affordable* benefit plans we offer will not increase your company's liabilities; primarily because employees are prohibited from using the legal benefit against their employer. The cost of our plan includes coverage for the employee, their spouse or domestic partner, and up to 8 dependents.

Plan coverage includes but is not limited to your:

- Complete Will
- Complete Power of attorney
- Complete Health Care directive
- Complete 5-way identity theft monitoring/restoration
- 24/7 Attorney access

NSA LLC has studied the employee benefits plans offered to employees. One study reveals that working Americans and their families face many legal issues on almost a daily basis. In that study, 57 million full-time working Americans experienced at least one significant legal event in the past 12 months, but only 60% of those who experienced such an event actually sought out the services of a lawyer to help them.

The study also highlights that legal problems know no economic boundaries. All income levels experience legal issues or events at about the same rate of 66%.

The problem is many Americans handle it alone, which may create more issues when Americans avoid legal help because of cost, access and trust issues.

EMPLOYEE BENEFITS

According to survey results, 93% of respondents believe lawyers charge too much for their services. Respondents reported paying an average hourly rate of \$284, with nearly 25% paying in excess of \$400 per hour. Additionally, nearly 20% did not know their attorney's hourly rate.

9 out of 10 respondents said if cost were more affordable, they would seek legal advice for even trivial issues such as a traffic ticket or the review of a rental agreement.

Nearly 90% of Americans say they don't have any form of legal insurance or legal protection service that could make getting qualified legal help easy and affordable.

76% of respondents said that they were hesitant to call a lawyer. 74% said they dread the thought of talking to a lawyer, and 72% said that most lawyers will try to take advantage of them.

Even more troubling is the fact that two-thirds of Americans say they have never heard of any such plans or services.

When asked if employees would be interested in having unlimited access to qualified attorneys at an accomplished law firm for advice and counsel on legal issues, no matter how serious or trivial, more than 60% reported they would be interested in purchasing a benefit plan like that.

66% of respondents reported they had to take at least one day off from work in the past year to deal with one or more legal issues.

- Execution of a contract
